App. No. 09/943,801

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1-7   (canceled)

Claim 8.   (currently amended) A computerized method of aggregating and displaying Internet account information on a processor of a client, the client processor having a display, the client processor operatively connected to a host server processor via the Internet, comprising:

displaying a view page on the display, said view page having three columns, each of said columns having at least one monitor therein,

populating said monitors with links to selected web-sites,

retrieving data from said selected web-sites,

displaying said retrieved data in said monitors on said view page,

~~The method of claim 1, further comprising~~ creating and storing a plurality of view pages in a view page database of the host processor, each said view page containing monitors selectively populated by the user, and

assigning a different name to each said view page to thereby distinguish said view pages from one another.

Claim 9.   (original) The method of claim 8, further comprising selecting a desired view page via a graphical user interface of a displayed view page, retrieving said selected view page from said view page database, and displaying said selected view page on the display.

Claims 10-15 (canceled)

App. No. 09/943,801

Claim 16.   (currently amended) ~~The method of claim 15, wherein said step of modifying a background color scheme of a monitor comprises:~~ A computerized method of aggregating and displaying Internet account information on a processor of a client, the client processor having a display, the client processor operatively connected to a host server processor via the Internet, comprising:

displaying a view page on the display, said view page having three columns, each of said columns having at least one monitor therein,

populating said monitors with links to selected web-sites,

retrieving data from said selected web-sites,

displaying said retrieved data in said monitors on said view page, and

selectively modifying a background color scheme of at least one of said monitors of said view page, wherein modifying the background color scheme further comprises:

selecting a monitor to modify,

retrieving said selected monitor from a monitors database of the host processor,

selecting a new display color for said selected monitor via a graphical user interface,

storing said modified selected monitor in said monitors database,

displaying an updated view page on the display of the client processor, said updated view page including said modified background color scheme of said selected monitor.

Claims 17-36. (canceled)

—8—

Claim 37.   (original) A computerized method of aggregating and displaying Internet account information on a processor of a client, the client processor having a display, the client processor operatively connected to a host server processor via the Internet, comprising:

creating and storing a plurality of view pages in a view page database of the host processor, assigning a different name to each said view page to thereby distinguish said view pages from one another, each said view page having one or more columns, each of said columns having at least one monitor therein,

selecting a view page from said view page database via a graphical user interface,

retrieving said selected view page from said view page database,

displaying said selected view page on the display,

selecting a monitor from one of said columns of said selected view page via a graphical user interface, moving said selected monitor to a new position on said view page via a graphical user interface, and displaying said monitor in said new position on said view page.

Claim 38.   (original) The method of claim 37, wherein said processor is a mobile device.

Claims 39-40. (canceled)

Claim 41.   (original) A computerized method of aggregating and displaying Internet account information on a processor of a client, the client processor having a display, the client processor operatively connected to a host server processor via the Internet, comprising:

displaying a view page on the display, said view page having one or more columns, each of said columns having at least one monitor therein,

populating said monitors with links to selected web-sites,

retrieving data from said selected web-sites,

-9-

Atty. Dkt. No. A00067US

displaying said retrieved data in said monitors on said view page,

selecting a monitor to modify, retrieving said selected monitor from a monitors database

of the host processor, selecting a new display color for said selected monitor via a graphical user

interface, storing said modified selected monitor in said monitors database, and displaying an

updated view page on the display of the client processor, said updated view page including said

modified background color scheme of said selected monitor.

Claim 42.   (currently amended) The method of claim 4̶0̶ 41 wherein said processor is a

mobile device.

Claims 43-49. (canceled)
